

PROFESSIONAL SUMMARY

Motivated by the desire to address humanity's most pressing challenges, I am an aspiring AI engineer currently in the final year of my bachelor's degree in Information Technology. My research interests are Privacy-preserving deep learning, and unsupervised learning.

KEY SKILLS

Programming: Python (Matplotlib, Pandas, Numpy), C++, SQL, Javascript
Machine Learning/ Data Science: Scikit-learn, PyTorch, KERAS, TensorFlow
High Performance Computing: Tesla P100 GPU
Visualization Tool: Tableau

EDUCATION

Bachelor in Technology | Information Technology Oct 2021 – Present
Kalinga Institute of Industrial Technology Bhubaneswar, India
CGPA: 9.31

Exchange Semester | Department of AI Sept 2024 – Dec 2024
Chungnam National University | Global Korea Scholarship Daejeon, South Korea

Highschool and Preparatory | Natural Science Jan 2016 – May 2019
Merciful Paradise Academy Mekelle, Ethiopia

RESEARCH / WORK EXPERIENCE

Birla Institute of Industrial Technology Pilani Campus, India
Research Internship (20 hours/week) May 2023 – Nov 2023

- Authored and published a research paper titled 'Privacy and Security Concerns in Generative AI'
- Proposed strategies for mitigating privacy and security risks in AI-driven technologies

HighRadius Technologies | Automated Finances Bhubaneswar, India
Technology Consultant Intern(40 hours/week) May 2024 – July 2024

- Designed and implemented automated ETL pipelines, improving data processing efficiency by 60% for client systems.
- Built sustainable and scalable solutions leveraging AWS, SQL, and other database technologies

Universal Concept of Mental Arithmetic System | UCMAS Bhubaneswar. India
Marketing Associate(10 hours/week) Oct 2023 – Feb 2024

- Spearheaded social media analytics tracking, optimizing post performance and boosting reach by 35% within three months.
- Implemented innovative marketing strategies, leading to a 30% increase in lead generation for the organization.

PUBLICATIONS

- **Privacy and Security Concerns in Generative AI: A Comprehensive Survey**
 - Published in IEEE Access, it garnered over **10,000 full reads and 40 citations** in less than a year, addressing key challenges and mitigation strategies in the field.

UNDER REVIEW

- A Survey of Explainability in Cross Platform Recommender Systems
- Unlocking the power of machine learning in big data: A scoping survey

TECHNICAL PROJECTS

- **Lightweight Waste Classifier using Nvidia Nanojet and YOLOv11** Sept 2024 – Present
 - Developed a waste classification system using NVIDIA NanoJet and YOLOv11, achieving 92% accuracy with real-time processing under 50ms.
 - Optimized YOLOv11 for edge deployment on NanoJet, reducing model size by 35% for efficient and sustainable solutions.
 - Developed the prototype and now under testing for large recycling units in Daejeon South Korea
- **NLP Based Multilingual Video Summarizer** July 2024 - Dec 2024
 - Fine-tuned LLaMA3 and open-source language translators, summarizing YouTube videos in 200+ languages.
 - Enabled concise, accurate, and culturally adaptable summaries, improving accessibility for diverse global audiences.
- **X(Twitter) Automated Data Pipelining**
 - Developed an ETL pipeline utilizing the Google Data API to efficiently extract and process YouTube comments for analysis.
 - Leveraged ChatGPT to generate actionable insights from the comments, helping enhance the quality of YouTube
- **Electric Vehicle Analysis | Dynamic Tableau Dashboard**
 - Analyzed electric vehicle (EV) data to identify trends and performance metrics, utilizing Tableau for detailed visualizations.
 - Created interactive dashboards that highlighted key insights, allowing users to explore the data dynamically and make informed decisions.

SELECTED HONOURS / AWARDS

- **Fully Funded Merit Scholarship:** Study In India Program for 4 years of my bachelor degree
- **Global Korea Scholarship:** Funded my 7th semester in South Korea as an Exchange Student
- **KIIT Merit Scholarship:** Topper from the IT department in my 6th Semester

LEADERSHIP AND VOLUNTEERING SERVICES

- **Blood Donation Camp Organizer, Ethiopian Blood Bank | Mekelle Center** Feb 2017 – July 2020
 - Coordinated with the center to organize tri monthly blood donation camps in my highschool and my neighborhood
 - Led a team of student volunteers, promoting the initiative within school and the community
- **Community School English Teacher, Paradise School of American English** March 2017 - June 2020
 - Volunteered to teach underprivileged children (ages 8 to 17) with limited English proficiency.
- **Core Member, Artificial Intelligence Society of KIIT, AISOC** April 2023 – March 2024
 - Collaborated with AI researchers who are in top 2% researchers of the world, to organize events, workshops, and initiatives focused on AI, fostering a community of learners and professionals in the field.
 - Contributed to the advancement and promotion of artificial intelligence research and education within KIIT University through active participation in a non-profit organization.
