

PROFESSIONAL SUMMARY

With the goal of increasing the Quality of Life of Patients with Neurodegenerative Disease, I am an individual that bridges expertise in Computer Science and Neuroscience.

RESEARCH / WORK EXPERIENCE

Neural Interfaces Lab | Gonda Brain Research Center Ramat Gan, Israel
Research Internship (30 hours/week) Oct 2025 – July 2026

- Worked on a project aimed on increasing quality of life of patients with Parkinson's disease supervised by Prof. Izhar Bar Gad
- Longitudinal Patient Modelling for conversational agents

Birla Institute of Industrial Technology Pilani Campus, India
Research Internship (20 hours/week) May 2023 – Nov 2023

- Proposed strategies for mitigating privacy and security risks in AI-driven technologies supervised by Prof. Vikas Hassija
- Authored and published a research paper titled 'Privacy and Security Concerns in Generative AI'

HighRadius Technologies | FinTech Bhubaneswar, India
Technology Consultant Internship (40 hours/week) May 2024 – July 2024

- Designed and implemented automated ETL pipelines, improving data processing efficiency by 60%
- Built sustainable and scalable solutions leveraging AWS, SQL, and other database tools

EDUCATION

MSc In Neuroscience Aug 2026
Vrije University of Amsterdam Amsterdam, The Netherlands

MSc In Brain and Data Science Oct 2025 – Present
Bar Ilan University Ramat Gan, Israel

NeuroData Summer School July 2026
University of Zagreb Zagreb, Croatia

Bachelor in Technology | Information Technology Oct 2021 – June 2025
Kalinga Institute of Industrial Technology Bhubaneswar, India

Exchange Semester | Department of AI Sept 2024 – Dec 2024
Chungnam National University | Global Korea Scholarship Daejeon, South Korea

PUBLICATIONS

- **Privacy and Security Concerns in Generative AI: A Comprehensive Survey(2024)**
 - Reviews major privacy and security risks in generative AI, mitigation strategies, and open research challenges. The paper has received over 400 citations.
- **Unlocking the Power of Machine Learning in Big Data(2025)**
 - Survey on the role of ML in Big Data analytics, tracing the historical development of ML-enabled data processing and decision-support systems.

TECHNICAL PROJECTS

- **AI Augmented Treatment of Parkinson's Disease Patients** Oct 2025 - July 2026
 - As part of my work in the Neural Interfaces lab, participated in designing a WhatsApp-based clinical AI agent for Parkinson's disease monitoring with domain-specific agents to capture symptoms, medication events, and patient routines.
- **LoCoPD: Longitudinal Conversational Modelling of Parkinson's Disease.** Mar 2026 – July 2026
 - A synthetic patient generator designed to create realistic, multidimensional profiles representing people living with Parkinson's disease.
- **Covert Speech Classification Using Spatio Temporal Transformer** Oct 2025 – Mar 2026
 - A model interpretability analysis on an already existing project for a functional-area spatio-temporal transformer for EEG-based imagined-speech classification.

SELECTED HONOURS / AWARDS

- **Erasmus Mundus Joint Master Scholarship:** Neuroscience and Data Science in Israel and Netherlands
- **Fully Funded Merit Scholarship:** Study In India Program for 4 years of my bachelor's degree
- **Global Korea Scholarship:** Funded my 7th semester in South Korea as an Exchange Student

LEADERSHIP AND VOLUNTEERING SERVICES

- **Blood Donation Camp Organizer,** *Ethiopian Blood Bank | Mekelle Center* Feb 2017 – July 2020
 - Coordinated with the center to organize tri monthly blood donation camps in my highschool and my neighborhood
 - Led a team of student volunteers, promoting the initiative within school and the community
- **Community School English Teacher,** *Paradise School of American English* March 2017 - June 2020
 - Volunteered to teach underprivileged children (ages 8 to 17) with limited English proficiency.
- **Core Member,** *Artificial Intelligence Society of KIIT, AISOC* April 2023 – March 2024
 - Collaborated with AI researchers who are in top 2% researchers of the world, to organize events, workshops, and initiatives focused on AI, fostering a community of learners and professionals in the field.
 - Contributed to the advancement and promotion of artificial intelligence research and education within KIIT University through active participation in a non-profit organization.
